

Tuomas

LEHTI

Software Developer

About me

From the moment I first created "Hello World" on a console, I knew I was hooked to software development.

What started with a simple "Hello World" has become a full-fledged passion that only grows stronger as time goes by.

Technical skills

- **Technologies:**
HTML, CSS, JavaScript
- **Frameworks/Libraries:**
React, Bootstrap, Sematic UI
- **Tools:**
Visual Studio Code, Git, Gimp, Figma, Wireframe, Linux

Languages

English - A1

Experience

Freelance Web Developer

2019 - 2021

- Design a logo and build a website for a local company that increased customer acquisition and sales by as much as 30%. www.blanca.fi
- Helped an online gaming site to create a back-linking strategy to rank better on Google.
- Created a logbook app for a local sailing group. Boat owners can now easily track their distances and engine hours to keep up with the service deadlines. bit.ly/veneilyloki

(user: veneilyloki@gmail.com, password: demovene)

- Multiple five-star ratings and recommendations in [UpWork](#).

Technical Nurse at Turku University Hospital

2014 - 2019

- In charge of the operation, service, and upgrade of devices and software in ENT- operations unit.

Education

Vocational Qualification in software development

2019 - 2021

- Followed my passion and learned JavaScript.
- Excelled in Front End Development with grade 5/5.
- Acquired fundamental knowledge of UX/UI design.
